

MAKE DISCIPLES.

Our Working Definition of Disciple-making:

Disciple-making is the process by which we encourage believers in Jesus Christ toward spiritual maturity, looking for markers of that maturity, such as commitment to the community of the redeemed, faith that is coupled with obedience to God’s word, the observable fruit of love and good works, and a willingness to live not as spiritual consumers, but as those sent to be Christ’s representatives, strategically placed in a world that may be ignorant, apathetic or even hostile to the gospel message – yet a world from which future generations of disciples will be made.

In the tables below, the Milestones have been left blank. Write your own personal goal – your next Milestone – for each area of spiritual growth in that space.
